In 1972, the UN General Assembly designated 5 June as World Environment Day (WED). The first celebration, under the slogan “Only One Earth” took place in 1973. In the following years, WED has developed as a platform to raise awareness on the problems facing our environment such as air pollution, plastic pollution, illegal wildlife trade, sustainable consumption, sea-level increase, and food security, among others. Furthermore, WED helps drive change in consumption patterns and in national and international environmental policy.

Helping community groups and individuals to gain a basic understanding of the environment and related issues. Public awareness of the environment is required with this objectives NSS unit of Shri Balasaheb Tirpude College of Hotel Management, celebrates World Environment Day by conducting the deep knowledgeable session to promote environmental awareness and understanding.

In this Session 4 short documentaries highlighting various Environmental issues were played so that student can understand the problems once these problems were pointed out NSS Officer Mr. Ankeet Kenekar talked about the Sustainable development and conservation of natural resources at the home, college and university level. In following ways, he encourages students to practise the conservations of natural resources-

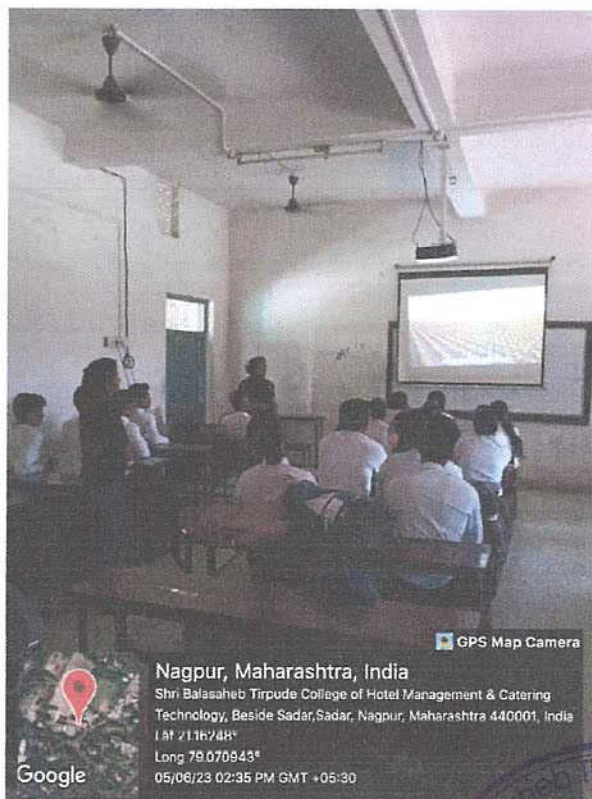

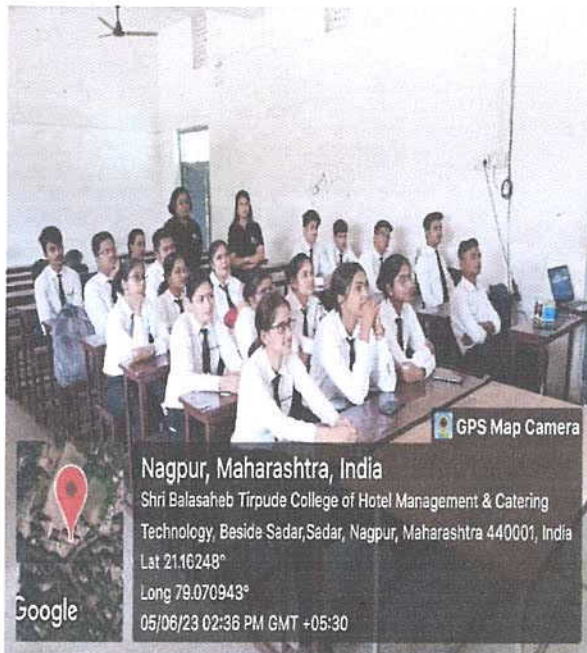

- Unplug the appliances: when not in use.
- Promote organic food: for healthy and chemical-free food.
- Ban plastic – prefer paper bags that can be recycled.
- Promote renewable energy uses and their applications.
- Prefer more walking and driving less – to save fuel and energy.
- Educate for neighbours, relatives, friends and poor people – Ultimately benefits the environment.
- Promote animal’s protection and care – They have equal rights like us to use earth’s resources.
- Afforestation and reforestation: Planting trees are the key to resolve every earth’s problem.
- Proper waste disposal: It will reduce major kinds of pollution, i.e., air, water, land.
- Stop wasting water – Use bucket wherever possible.

The main goal of the session was to students’ education is to create collective action to address environmental issues and to raising public awareness for the environment. It will allows

students to take the lead in creating a green and healthy learning environment inside and outside college campus.

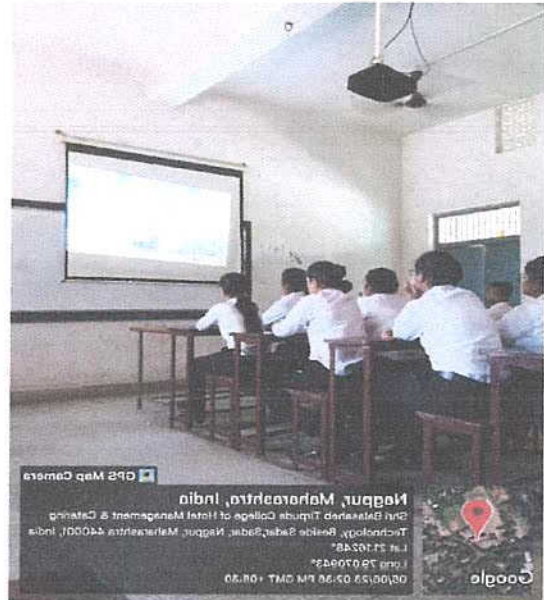

As the awareness session was concluded by Ms. Nitu B. Jaiswal with following statement-
“Tomorrow’s leaders must be ready for tomorrow’s challenges and adequately prepared for the future that their children will inherit. To make better tomorrow environmental education is the only key.”
