Flower arrangement is a very old art. In India, flowers were earlier arranged in temples and during festivities. In hotels, flowers are used extensively. There may be a large arrangement of flowers in the foyer and in lounges and restaurants, as well as smaller arrangements in the suites. Some hotels provide a bud vase in every room. VIP rooms may even have more than one arrangement. The housekeeper is responsible for all flower arrangements and their placement a most hotels.

Making up a good flower arrangement requires a lot of creativity on the part of the arranger, and beginners can develop this art through study and experimentation with different plant materials. Studying pictures of interesting arrangements in books and magazines for ideas is one way of learning this art, but actual practice is essential for developing skill in flower arrangement. Keeping this in mind every year Shri Balasaheb Tirpude College of Hotel Management and Catering Technology Organises the one Day Work-shop on Flower Arrangement. The main of this work shop was to develop the knowledge and understanding the uses of various material, equipment's, Mechanics, Bases, Supports and accessories along the various principles that they need to utilised while making Flower Arrangement. This work-shop also provide the opportunity to bring out the creativity of BHMCT Semester-IV students. This year 46 students showcased their creativity under the supervision of Ms. Nitu Jaiswal, Assistant Professor of the College. Main highlight for Workshop this was Foliage Arragement.
